Share capital	Non-monetary
Trade receivables	Monetary
Investment in equity shares	Non-monetary
Fixed assets	Non-monetary

- (ii) As per AS 11 on 'The Effects of Changes in Foreign Exchange Rates', all foreign currency transactions should be recorded by applying the exchange rate on the date of transactions. Thus, goods purchased on 1.1.2017 and corresponding creditor would be recorded at Rs. 11,25,000 (i.e. \$15,000 × Rs. 75)

According to the standard, at the balance sheet date all monetary transactions should be reported using the closing rate. Thus, creditors of US \$15,000 on 31.3.2017 will be reported at Rs. 11,10,000 (i.e. \$15,000 × Rs. 74) and exchange profit of Rs. 15,000 (i.e. 11,25,000 – 11,10,000) should be credited to Profit and Loss account in the year 2016-17.

On 7.7.2017, creditors of \$15,000 is paid at the rate of Rs. 73. As per AS 11, exchange difference on settlement of the account should also be transferred to Profit and Loss account. Therefore, Rs. 15,000 (i.e. 11,10,000 – 10,95,000) will be credited to Profit and Loss account in the year 2017-18.

As per AS 9 "Revenue Recognition", in a transaction involving the sale of goods, performance should be regarded as being achieved when the following conditions are fulfilled:

- the seller of goods has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the seller retains no effective control of the goods transferred to a degree usually associated with ownership; and
- no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods.

**Case (i):** 25% goods lying unsold with consignee should be treated as closing inventory and sales should be recognized for Rs. 3,00,000 (75% of Rs. 4,00,000) for the year ended on 31.3.17. In case of consignment sale revenue should not be recognized until the goods are sold to a third party.

**Case (ii):** The sale is complete but delivery has been postponed at buyer's request. Fashion Ltd. should recognize the entire sale of Rs.1,95,000 for the year ended 31<sup>st</sup> March, 2017.

**Case (iii):** In case of goods sold on approval basis, revenue should not be recognized until the goods have been formally accepted by the buyer or the buyer has done an act adopting the transaction or the time period for rejection has elapsed or where no time has been fixed, a

reasonable time has elapsed. Therefore, revenue should be recognized for the total sales amounting Rs. 2,50,000 as the time period for rejecting the goods had expired.

Thus total revenue amounting Rs. 7,45,000 (3,00,000+1,95,000+2,50,000) will be recognized for the year ended 31<sup>st</sup> March, 2017 in the books of Fashion Ltd.

**ANSWER-B**

Since there is Inter-Company Shareholding, Simultaneous Equations Method is applied.

**Computation of Net Assets**

Particulars	Arun	Bhairav
Investment in Equity Shares of B Ltd (1000 / 4000) = 1/4th	1/4th x B	-
Investment in Equity Shares of A Ltd (2000 / 5000) = 2/5th		2/5th x A
Sundry Assets	7,70,000	4,40,000
Less: 10 % Debentures	(2,00,000)	(1,50,000)
Net Assets (Let Intrinsic Value of Arun Ltd and Bhairav Ltd be 'A' & 'B')	A	B

The two equations are:  $A = 5,70,000 + \frac{1}{4} B$ .....Eqn 1, and  $B = 2,90,000 + \frac{2}{5} A$  .....Eqn 2

By substituting value of A from Equation 1 in Equation 2, we get,  $B = 2,90,000 + \frac{2}{5} (5,70,000 + \frac{1}{4} B)$

$$\text{So, } B = 2,90,000 + 2,28,000 + \frac{1}{10} B. \quad B - \frac{1}{10} B = 5,18,000. \quad \text{i.e. } \frac{9}{10} B = 5,18,000 \quad B = 5,18,000 \times \frac{10}{9}$$

So, B = Rs. 5,75,556 (approx.)

Upon substituting value of B in Equation 1, we get  $A = 5,70,000 + \frac{1}{5} (5,75,556) = \text{Rs. } 7,13,889$

#### **ANSWER-4**

#### **ANSWER-A**

**(5 MARKS)**

As per AS 4 'Contingencies and Events Occurring After the Balance Sheet Date', adjustment to assets and liabilities are required for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the Balance Sheet date.

A debtor for Rs. 20,00,000 suffered heavy loss due to earthquake in the last week of February, 2017 which was not covered by insurance. This information with its implications was already known to the company. The fact that he became bankrupt in April, 2017 (after the balance sheet date) is only an additional information related to the condition existing on the balance sheet date.

Accordingly, full provision for bad debts amounting Rs. 20,00,000 should be made, to cover the loss arising due to the insolvency of a debtor, in the final accounts for the year ended 31<sup>st</sup> March 2017. Since the company has already made 5% provision of its total debtors, additional provision amounting Rs. 19,00,000 shall be made (20,00,000 x 95%) for the year ended 31<sup>st</sup> March, 2017.
