SUGGESTED SOLUTION

INTERMEDIATE N' 2018 EXAM

SUBJECT- AUDITING

Test Code –CIM 8033

Date: 25.08.2018

Head Office :Shraddha, 3rd Floor, Near Chinai College, Andheri (E), Mumbai – 69.

Tel : (022) 26836666

ANSWER-1

- a) (a)
- b) (d)
- c) (d)
- d) (d)
- e) (a)
- f) ©
- g) (d)
- h) ©

ANSWER-2

ANSWER-A

Correct : As per SA 200 “Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing,” the auditor is not expected to, and cannot, reduce audit risk to zero and cannot therefore obtain absolute assurance that the financial statements are free from material misstatement due to fraud or error. This is because there are inherent limitations of an audit, which result in most of the audit evidence on which the auditor draws conclusions and bases the auditor’s opinion being persuasive rather than conclusive. **(2 MARKS)**

ANSWER B

Incorrect : as per AS 1, “ Disclosure of Accounting Policies,” specific disclosure of the fundamental accounting assumption is required if they are not followed in the financial statements. **(2 MARKS)**

ANSWER C

Correct. Once the overall audit strategy has been established, an audit plan can be developed to address the various matters identified in the overall audit strategy, taking into account the need to achieve the audit objectives through the efficient use of the auditor’s resources. The establishment of the overall audit strategy and the detailed audit plan are not necessarily discrete or sequential processes, but are closely inter – related since changes in one may result in consequential changes to the other. **(2 MARKS)**

Answer : D

Incorrect : Materiality for the financial statements as a whole (and, if applicable, the materiality level or levels for particular classes of transactions, account balances or disclosures) may need to be revised as a result of a change in circumstances that occurred during the audit (for example, a decision to dispose of a major part of the entity’s business), new information, or a change in the auditor’s understanding of the entity and its operations as a result of performing further audit procedures. **(2 MARKS)**

Answer : E

Incorrect : As per SA 230 on “Audit Documentation” the working papers are the property of the auditor and the auditor has right to retain them. He may at his discretion can make available working papers to his client. The auditor should retain them long enough to meet the needs of his practice and legal or professional requirement. **(2 MARKS)**

Answer : F

Incorrect :Internal evidence is the evidence that originates within the client’s organization. Since purchase invoice originates outside the client’s organization, therefore, it is an example of external evidence.

(1 MARK)

Answer : G

Incorrect : Section 138 of the Companies Act, 2013 requires every private company to appoint an internal auditor having turnover of Rs. 200 crore or more during the preceding financial year; or outstanding loans or borrowings from banks or public financial institutions exceeding Rs. 100 crore or more at any point of time during the preceding financial year.

(2 MARKS)

Answer : H

Incorrect : The management is responsible for maintaining an adequate accounting system incorporating various internal controls to the extent appropriate to the size and nature of the business. Maintenance of Internal Control System is responsibility of management because the internal control is the process designed, implemented and maintained by those charged with governance/ management to provide reasonable assurance about the achievement of entity’s objectives.

ANSWER-3

ANSWER-A

The auditor should plan his work to enable him to conduct an effective audit in an efficient and timely manner. Plans should be based on knowledge of the client’s business.

Plans should be made to cover, among other things:

- (a) Acquiring knowledge of the client’s accounting systems, policies and internal control procedures;
- (b) Establishing the expected degree of reliance to be placed on internal control;
- (c) determining and programming the nature, timing, and extent of the audit procedures to be performed;and
- (d) coordinating the work to be performed.

ANSWER-B

External confirmation procedures frequently are relevant when addressing assertions associated with account balances and their elements, but need not be restricted to these items. For example, the auditor may request external confirmation of the terms of agreements, contracts, or transactions between an entity and other parties. External confirmation procedures also may be performed to obtain audit evidence about the absence

of certain conditions. For example, a request may specifically seek confirmation that no “side agreement” exists that may be relevant to an entity’s revenue cut-off assertion. Other situations where external confirmation procedures may provide relevant audit evidence in responding to assessed risks of material misstatement include:

- Bank balances and other information relevant to banking relationships.
- Accounts receivable balances and terms.
- Inventories held by third parties at bonded warehouses for processing or on consignment.
- Property title deeds held by lawyers or financiers for safe custody or as security.
- Investments held for safekeeping by third parties, or purchased from stock brokers but not delivered at the balance sheet date.
- Amounts due to lenders, including relevant terms of repayment and restrictive covenants.
- Accounts payable balances and terms.

ANSWER-4

ANSWER-A

Control Environment – Component of Internal Control: The auditor shall obtain an understanding of the control environment. As part of obtaining this understanding, the auditor shall evaluate whether:

- (i) Management has created and maintained a culture of honesty and ethical behavior; and
- (ii) The strengths in the control environment elements collectively provide an appropriate foundation for the other components of internal control.

What is included in Control Environment?

The control environment includes:

- (i) the governance and management functions and
- (ii) the attitudes, awareness, and actions of those charged with governance and management.
- (iii) The control environment sets the tone of an organization, influencing the control consciousness of its people.

Elements of the Control Environment: Elements of the control environment that may be relevant when obtaining an understanding of the control environment include the following:

- (a) **Communication and enforcement of integrity and ethical values** – These are essential elements that influence the effectiveness of the design, administration and monitoring of controls.
- (b) **Commitment to competence** – Matters such as management’s consideration of the competence levels for particular jobs and how those levels translate into requisite skills and knowledge.
- (c) **Participation by those charged with governance** – Attributes of those charged with governance such as:
 - ◆ Their independence from management.

- ◆ Their experience and stature.
 - ◆ The extent of their involvement and the information they receive, and the scrutiny of activities.
 - ◆ The appropriateness of their actions, including the degree to which difficult questions are raised and pursued with management, and their interaction with internal and external auditors.
- (d) **Management’s philosophy and operating style – Characteristics such as management’s:**
- ◆ Approach to taking and managing business risks.
 - ◆ Attitudes and actions toward financial reporting.
 - ◆ Attitudes toward information processing and accounting functions and personnel.
- (e) **Organizational structure** – The framework within which an entity’s activities for achieving its objectives are planned, executed, controlled, and reviewed.
- (f) **Assignment of authority and responsibility** - Matters such as how authority and responsibility for operating activities are assigned and how reporting relationships and authorization hierarchies are established.
- (g) **Human resource policies and practices** – Policies and practices that relate to, for example, recruitment, orientation, training, evaluation, counselling, promotion, compensation, and remedial actions.

ANSWER-B

The form, content and extent of audit documentation depend on factors such as:

1. The size and complexity of the entity.
2. The nature of the audit procedures to be performed.
3. The identified risks of material misstatement.
4. The significance of the audit evidence obtained.
5. The nature and extent of exceptions identified.
6. The need to document a conclusion or the basis for a conclusion not readily determinable from the documentation of the work performed or audit evidence obtained.
7. The audit methodology and tools used.

ANSWER-5

ANSWER-A

The firm’s system of quality control should include policies and procedures addressing each of the following elements:

- (a) Leadership responsibilities for quality within the firm.
- (b) Ethical requirements.
- (c) Acceptance and continuance of client relationships and specific engagements.
- (d) Human resources.
- (e) Engagement performance.
- (f) Monitoring.

ANSWER-B

The auditor shall assemble the audit documentation in an audit file and complete the administrative process of assembling the final audit file on a timely basis after the date of the auditor's report.

SQC 1 "Quality Control for Firms that perform Audits and Review of Historical Financial Information, and other Assurance and related services", requires firms to establish policies and procedures for the timely completion of the assembly of audit files. An appropriate time limit within which to complete the assembly of the final audit file is ordinarily not more than 60 days after the date of the auditor's report.

The completion of the assembly of the final audit file after the date of the auditor's report is an administrative process that does not involve the performance of new audit procedures or the drawing of new conclusions. Changes may, however, be made to the audit documentation during the final assembly process, if they are administrative in nature.

Examples of such changes include:

- ◆ Deleting or discarding superseded documentation.
- ◆ Sorting, collating and cross referencing working papers.
- ◆ Signing off on completion checklists relating to the file assembly process.
- ◆ Documenting audit evidence that the auditor has obtained, discussed and agreed with the relevant members of the engagement team before the date of the auditor's report.

After the assembly of the final audit file has been completed, the auditor shall not delete or discard audit documentation of any nature before the end of its retention period.

SQC 1 requires firms to establish policies and procedures for the retention of engagement documentation. The retention period for audit engagements ordinarily is no shorter than seven years from the date of the auditor's report, or, if later, the date of the group auditor's report.
