SUBJECT- AUDIT

Test Code – CIM 8652

BRANCH - () (Date :)

Head Office : Shraddha, 3rd Floor, Near Chinai College, Andheri (E), Mumbai – 69.
Tel : (022) 26836666

ANSWER : 1

1.	**B**
2.	**C**
3.	**A**
4.	**D**
5.	**C**
6.	**A**
7.	**D**
8.	**D**
9.	**B**
10.	**B**
11.	**C**
12.	**B**
13.	**A**
14.	**C**
15.	**A**
16.	**D**
17.	**C**
18.	**B**
19.	**A**
20.	**C**

ANSWER : 2

1. **Incorrect:** As per SA 210 "Agreeing the Terms of Audit Engagements", preconditions for an audit may be defined as the use by management of an acceptable financial reporting framework in the preparation of the financial statements and the agreement of management and, where appropriate, those charged with governance to the premise on which an audit is conducted.

2. **Incorrect:** 'Substantive procedure' may be defined as an audit procedure designed to detect material misstatements at the assertion level whereas 'tests of controls' is an audit procedure designed to evaluate the operating effectiveness of controls in preventing, or detecting and correcting, material misstatements at the assertion level.

3. **Correct :** Inquiry is the most efficient but least effective. Moreover, testing through inquiry alone is not sufficient. Inquiry should be corroborated by applying any one or a combination of observation, inspection or reperformance.

4. **Incorrect:** Although inquiry may provide important audit evidence, and may even produce evidence of a misstatement, inquiry alone ordinarily does not provide sufficient audit evidence of the absence of a material misstatement at the assertion level, nor of the operating effectiveness of controls.

5. **Incorrect:** Teeming and Lading is one of the techniques of suppressing cash receipts and not of inflating cash payments. Money received from one customer is misappropriated and the account is adjusted with the subsequent receipt from another customer and so on.

6. **Correct.** As per SA 200, "Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing", professional skepticism is an attitude that includes a questioning mind, being alert to conditions which may indicate possible misstatement due to error or fraud, and a critical assessment of audit evidence. Thus, it is necessary for the auditor to maintain professional skepticism throughout the audit.
7. **Incorrect:** An intangible asset is an identifiable non-monetary asset, without physical substance, held for use in the production or supply of goods or services, for rental to others, or for administrative purposes.
8. **Correct:** The auditor shall express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.

ANSWER : 2

(A) "An audit is independent examination of financial information of any entity, whether profit oriented or not, and irrespective of its size or legal form, when such an examination is conducted with a view to expressing an opinion thereon."

Analysis of the Definition

1. Audit is Independent examination of Financial information.
2. of any entity – that entity may be profit oriented or not and irrespective of its size or legal form. For example – Profit oriented – Audit of Listed company engaged in business. On the other hand, Audit of NGO – not profit oriented.
3. The objective of the audit is to express an opinion on the financial statements.

The person conducting this task should take care to ensure that financial statements would not mislead anybody. This he can do honestly by satisfying himself that:

(i) the accounts have been drawn up with reference to entries in the books of account;

(ii) the entries in the books of account are adequately supported by sufficient and appropriate evidence;

(iii) none of the entries in the books of account has been omitted in the process of compilation and nothing which is not in the books of account has found place in the statements;

(iv) the information conveyed by the statements is clear and unambiguous;

(v) the financial statement amounts are properly classified, described and disclosed in conformity with accounting standards; and

(vi) the statement of accounts present a true and fair picture of the operational results and of the assets and liabilities.

(4 MARKS)

(B) Auditor Holding Securities of a Company: As per sub-section (3)(d)(i) of Section 141 of the Companies Act, 2013 read with Rule 10 of the Companies (Audit and Auditors) Rule, 2014, a person shall not be eligible for appointment as an auditor of a company, who, or his relative or partner is holding any security of or interest in the company or its subsidiary, or of its holding or associate company or a subsidiary of such holding company. However, the relative may hold security or interest in the company of face value not exceeding Rs. 1 lakh.

Also, as per sub-section 4 of Section 141 of the Companies Act, 2013, where a person appointed as an auditor of a company incurs any of the disqualifications mentioned in sub-section (3) after his appointment, he shall vacate his office as such auditor and such vacation shall be deemed to be a casual vacancy in the office of the auditor.

(2.5 MARKS)

In the present case, Mr. Hanuman, Chartered Accountant, a partner of M/s Ram and Hanuman Associates, holds 100 equity shares of Shiva Ltd. which is a subsidiary of Krishna Ltd. Therefore, the firm, M/s Ram and Hanuman Associates would be disqualified to be appointed as statutory auditor of Krishna Ltd., which is the holding company of Shiva Ltd., because one of the partners Mr. Hanuman is holding equity shares of its subsidiary.

(1.5 MARKS)

(C) **Meaning of Valuation Assertion –** Assets, liabilities, and equity interests are included in the financial statements at appropriate amounts and any resulting valuation or allocation adjustments are appropriately recorded.

Example of Inventory explaining the valuation assertion is given hereunder: Inventory has been recognized at the lower of cost and net realizable value in accordance with AS 2 - Inventories. Any costs that could not be reasonably allocated to the cost of production (e.g. general and administrative costs) and any abnormal wastage have been excluded from the cost of inventory. An acceptable valuation basis (e.g. FIFO, Weighted average etc.) has been used to value inventory as at the period-end.

(3 MARKS)

(D) Reporting for Fixed Assets- Clause (i) of Para 3 of CARO ,2016, requires the auditor to include a statement in the auditor's report on the following matters, namely-

(i) whether the company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets;

(ii) whether these fixed assets have been physically verified by the management at reasonable intervals; whether any material discrepancies were noticed on such verification and if so, whether the same have been properly dealt with in the books of account;

(iii) whether the title deeds of immovable properties are held in the name of the company. If not, provide the details thereof;

(3*1 = 3 MARKS)

ANSWER : 3

(A) **Before the commencement of the audit, the joint auditors should discuss and develop a joint audit plan.** In developing the joint audit plan, the joint auditors should:

(a) identify division of audit areas and common audit areas;

(b) ascertain the reporting objectives of the engagement;

(c) consider and communicate among all joint auditors the factors that are significant

(d) in directing the engagement team's efforts;

(e) consider the results of preliminary engagement activities, or similar engagements performed earlier.

(f) ascertain the nature, timing and extent of resources necessary to accomplish the engagement.

(4*1 = 4 MARKS)

(B) **Positive confirmation request –** A request that the confirming party respond directly to the auditor indicating whether the confirming party agrees or disagrees with the information in the request, or providing the requested information.

Negative confirmation request – A request that the confirming party respond directly to the auditor only if the confirming party disagrees with the information provided in the request.

Non-response – A failure of the confirming party to respond, or fully respond, to a positive confirmation request, or a confirmation request returned undelivered.

Exception – A response that indicates a difference between information requested to be confirmed, or contained in the entity's records, and information provided by the confirming party.

(4*1 = 4 MARKS)

(C) Since routine checks cannot be depended upon to disclose all the mistakes or manipulation that may exist in accounts, certain other procedures also have to be applied like trend and ratio analysis in addition to reasonable tests. These collectively are known as overall tests. With the passage of tests, analytical procedures have acquired lot of significance as substantive audit procedure. SA-520 on Analytical Procedures discusses the application of analytical procedures during an audit.

Meaning of Analytical Procedures. As per the Standard on Auditing (SA) 520 "Analytical Procedures", the term "analytical procedures" means evaluations of financial information through analysis of plausible relationships among both financial and non-financial data. Analytical procedures also encompass such investigation as is necessary of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount.

(3 MARKS)

(D) **Objectives of Internal Control**

Internal control over safeguarding of assets against unauthorized acquisition, use, or disposition may include controls relating to both financial reporting and operations objectives. The auditor's consideration of such controls is generally limited to those relevant to the reliability of financial reporting. For example, use of access controls, such as passwords, that limit access to the data and programs that process cash disbursements may be relevant to a financial statement audit. Conversely, safeguarding controls relating to operations objectives, such as controls to prevent the excessive use of materials in production, generally are not relevant to a financial statement audit.

Objectives of Internal Control are :

(i) transactions are executed in accordance with managements general or specific authorization;

(ii) all transactions are promptly recorded in the correct amount in the appropriate accounts and in the accounting period in which executed so as to permit preparation of financial information within a framework of recognized accounting policies and practices and relevant statutory requirements, if any, and to maintain accountability for assets;

(iii) assets are safeguarded from 6authorized access, use or disposition; and

(iv) the recorded assets are compared with the existing assets at reasonable intervals and appropriate action is taken with regard to any differences.

ANSWER : 4

(A) **Stratification and Value-Weighted Selection:** In considering the characteristics of the population from which the sample will be drawn, the auditor may determine that stratification or value-weighted selection technique is appropriate. SA 530 provides guidance to the auditor on the use of stratification and value-weighted sampling techniques.

Stratification: Audit efficiency may be improved if the auditor stratifies a population by dividing it into discrete sub-populations which have an identifying characteristic. The objective of stratification is to reduce the variability of items within each stratum and therefore allow sample size to be reduced without increasing sampling risk.

When performing tests of details, the population is often stratified by monetary value. This allows greater audit effort to be directed to the larger value items, as these items may contain the greatest potential misstatement in terms of overstatement. Similarly, a population may be stratified according to a particular characteristic that indicates a higher risk of misstatement, **for example, when testing the allowance for doubtful accounts in the valuation of accounts receivable, balances may be stratified by age.**

The results of audit procedures applied to a sample of items within a stratum can only be projected to the items that make up that stratum. To draw a conclusion on the entire population, the auditor will need to consider the risk of material misstatement in relation to whatever other strata make up the entire population.

For example, 20% of the items in a population may make up 90% of the value of an account balance. The auditor may decide to examine a sample of these items. The auditor evaluates the results of this sample and reaches a conclusion on the 90% of value separately from the remaining 10% (on which a further sample or other means of gathering audit evidence will be used, or which may be considered immaterial).

If a class of transactions or account balance has been divided into strata, the misstatement is projected for each stratum separately. Projected misstatements for each stratum are then combined when considering the possible effect of misstatements on the total class of transactions or account balance.

Value-Weighted Selection: When performing tests of details it may be efficient to identify the sampling unit as the individual monetary units that make up the population. Having selected specific monetary units from within the population, **for example, the accounts receivable balance, the auditor may then examine the particular items, for example, individual balances, that contain those monetary units.** One benefit of this approach to defining the sampling unit is that audit effort is directed to the larger value items because they have a greater chance of selection, and can result in smaller sample sizes.

This approach may be used in conjunction with the systematic method of sample selection and is most efficient when selecting items using random selection.

(4 MARKS)

(B) Responsibilities for the Financial Statements: The auditor's report shall include a section with a heading "Responsibilities of Management for the Financial Statements."

SA 200 explains the premise, relating to the responsibilities of management and, where appropriate, those charged with governance, on which an audit in accordance with SAs is conducted. Management and, where appropriate, those charged with governance accept responsibility for the preparation of the financial statements. Management also accepts responsibility for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the auditor's report includes reference to both responsibilities as it helps to explain to users the premise on which an audit is conducted.

This section of the auditor's report shall describe management's responsibility for:

- **(i)** **Preparing the financial statements** in accordance with the applicable financial reporting framework, **and for such internal control** as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error;[because of the possible effects of fraud on other aspects of the audit, materiality does not apply to management's acknowledgement regarding its responsibility for the design, implementation, and maintenance of internal control (or for establishing and maintaining effective internal control over financial reporting) to prevent and detect fraud.] and
- **(ii)** **Assessing the entity's ability to continue as a going concern** and whether the use of the going concern basis of accounting is appropriate as well as disclosing, if applicable, matters relating to going concern. The explanation of management's responsibility for this assessment shall include a description of when the use of the going concern basis of accounting is appropriate.

(4 MARKS)

(C) Fraudulent Financial Reporting: Fraudulent financial reporting involves intentional misstatements including omissions of amounts or disclosures in financial statements to deceive financial statement users. It can be caused by the efforts of management to manage earnings in order to deceive financial statement users by influencing their perceptions as to the entity's performance and profitability. Such earnings management may start out with small actions or inappropriate adjustment of assumptions and changes in judgments by management. Pressures and incentives may lead these actions to increase to the extent that they result in fraudulent financial reporting.

In some entities, management may be motivated to reduce earnings by a material amount to minimize tax or to inflate earnings to secure bank financing.

Fraudulent financial reporting may be accomplished by the following:

- (i) Manipulation, falsification (including forgery), or alteration of accounting records or supporting documentation from which the financial statements are prepared.
- (ii) Misrepresentation in or intentional omission from, the financial statements of events, transactions or other significant information.
- (iii) Intentional misapplication of accounting principles relating to amounts, classification, manner of presentation, or disclosure.

Fraudulent financial reporting often involves management override of controls that otherwise may appear to be operating effectively.

ANSWER : 5

(A) **Casual Vacancy by Resignation:** As per Section 139(8), any casual vacancy in the office of an auditor shall in the case of a company other than a company whose accounts are subject to audit by an auditor appointed by the Comptroller and Auditor-General of India, be filled by the Board of Directors within 30 days. If such casual vacancy is as a result of the resignation of an auditor, such appointment shall also be approved by the company at a general meeting convened within three months of the recommendation of the Board and he shall hold the office till the conclusion of the next annual general meeting.

Further, as per section 140(2) the auditor who has resigned from the company shall file within a period of 30 days from the date of resignation, a statement in the prescribed Form with the company and the Registrar. In the instant case, R resigned after three months of his appointment as statutory auditor as he wanted to pursue his career in banking sector.

Therefore, the board of director has appointed Mr. L as the statutory auditor with in 30 days is in order subject to such appointment shall also be approved by the company at a general meeting convened within three months of the recommendation of the Board. Further, it is also the duty of the auditor to file, within a period of 30 days from the date of resignation, a statement in the prescribed Form with the company and the Registrar in compliance with section 140(2) of the Companies Act, 2013.

(4 MARKS)

(B) It has been suggested that actual operation of the internal control should be tested by the application of procedural tests and examination in depth. Procedural tests simply mean testing of the compliance with the procedures laid down by the management in respect of initiation, authorization, recording and documentation of transaction at each stage through which it flows.

For example, the procedure for sales requires the following:

1. Before acceptance of any order the position of inventory of the relevant article should be known to ascertain whether the order can be executed in time.
2. An advice under the authorisation of the sales manager should be sent to the party placing the order, internal reference number, and the acceptance of the order. This advice should be prepared on a standardised form and copy thereof should be forwarded to inventory section to enable it to prepare for the execution of the order in time.
3. The credit period allowed to the party should be the normal credit period. For any special credit period a special authorisation of the sales manager would be necessary.
4. The rate at which the order has been accepted and other terms about transport, insurance, etc., should be clearly specified.
5. Before deciding upon the credit period, a reference should be made to the credit

section to know the creditworthiness of the party and particularly whether the party has honoured its commitments in the past.

(4 MARKS)

(C) **(i) Travelling Expenditure Rs. 50,000**

- Expenditure has been actually incurred for the purpose of travelling.
- Travelling has been undertaken during the year under consideration.
- Total amount of expenditure incurred is Rs. 50,000 during the year.
- It has been treated as revenue expenditure and charged to Statement of Profit and Loss.

(ii) **Trade receivable Rs. 2,00,000**

- These include all sales transaction occurred during the year.
- These have been recorded properly and occurred during the year.
- These constitute assets of the entity.
- These have been shown at proper value, i.e. after showing the deduction on account of provision for bad and doubtful debts.

(3 MARKS)

(D)

The engagement team should hold discussions to gain better understanding of the bank and its environment, including internal control, and also to assess the potential for material misstatements of the financial statements. All these discussions should be appropriately documented for future reference.

The discussion between the members of the engagement team and the audit engagement partner should be done on the susceptibility of the bank's branch financial statements to material misstatements. These discussions are ordinarily done at the planning stage of an audit. Specific emphasis should be provided to the susceptibility of the bank's financial statements to material misstatement due to fraud, that enables the engagement team to consider an appropriate response to fraud risks, including those related to engagement risk, pervasive risks, and specific risks. It further enables the audit engagement partner to delegate the work to the experienced engagement team members, and to determine the procedures to be followed when fraud is identified. Further, audit engagement partner may review the need to involve specialists to address the issues relating to fraud.

(3 MARKS)

ANSWER : 6

(A) Many related party transactions are in the normal course of business. In such circumstances, they may carry no higher risk of material misstatement of the financial statements than similar transactions with unrelated parties. However, the nature of related party relationships and transactions may, in some circumstances, give rise to higher risks of material misstatement of the financial statements than transactions with unrelated parties.

Example

- Related parties may operate through an extensive and complex range of relationships and structures, with a corresponding increase in the complexity of related party transactions.

- Information systems may be ineffective at identifying or summarizing transactions and outstanding balances between an entity and its related parties.
- Related party transactions may not be conducted under normal market terms and conditions; for example, some related party transactions may be conducted with no exchange of consideration.

(4 MARKS)

(B) Planning is not a discrete phase of an audit, but rather a continual and iterative process that often begins shortly after (or in connection with) the completion of the previous audit and continues until the completion of the current audit engagement. Planning, however, includes consideration of the timing of certain activities and audit procedures that need to be completed prior to the performance of further audit procedures. For example, planning includes the need to consider, prior to the auditor's identification and assessment of the risks of material misstatement, such matters as:

1. The analytical procedures to be applied as risk assessment procedures.
2. Obtaining a general understanding of the legal and regulatory framework applicable to the entity and how the entity is complying with that framework.
3. The determination of materiality.
4. The involvement of experts.
5. The performance of other risk assessment procedures.

(4 MARKS)

(C) **Discrepancies in the accounting records, including:**

- Transactions that are not recorded in a complete or timely manner or are improperly recorded as to amount, accounting period, classification, or entity policy.
- Unsupported or unauthorized balances or transactions.
- Last-minute adjustments that significantly affect financial results.
- Evidence of employees' access to systems and records inconsistent with that necessary to perform their authorized duties.
- Tips or complaints to the auditor about alleged fraud.
