Good morning everyone. It is indeed a pleasure to address you all and I thank my teachers for giving me this opportunity. It is often said that 'Failures are stepping stones to success'. I may not completely agree with that. I'd rather mention that 'Failure and success are like the two sides of a coin'. With your Class X exam approaching, remember that you have to give your best. At the end of the day, what matters the most is the efforts that you put in. Sometimes, you may not score as desired but remember that, it is more important to score in life than in exams. Because real education is what remains after you are done with your academics formally. So, give it your best. Best of luck.
